

RAKEZ BUSINESS EXCELLENCE AWARDS 2017 BEST CORPORATE SOCIAL RESPONSIBILITY

This category is to reward responsible business practice across the environment and community. Judges will look for innovative CSR strategies or initiatives that have or are currently making a real difference to people at a local, national or international level.

This award celebrates organisations that address a social or environmental need while reinvesting profit or surplus from trade to achieve their social missions. The award also recognises those achieving the greatest impact while demonstrating excellence in all aspects of enterprise – from innovation, staff engagement and customer focus to growth, leadership and financial performance. Judges will look for pioneering ideas and approaches that can be adapted in other areas of community service, and will assess each candidate on the sustainability of the model and potential for lasting improvement.
